

PAN-BELT®

Original patented concept **S.I.T.®** (Secure Individual Transport) system. Device without permanent fixation that secures children and other light pillion passenger on motorcycles. Ideal for use in "urban" mode : rapid implementation and minimal size. It eliminates the daily difficulties encountered when carrying passengers :

- Restrains the passenger riding pillion close behind you
- Eliminates the risk of passenger riding pillion falling during acceleration and when riding over bumpy road
- Diminishes the impact of passenger weight when negotiating bends

Non-slip seat
bi-component
Neoprene®

Adjustable belt
Quick lock buckle

Adjustable strap
length

Code: *PBD101*
